## About Us

Albau Aluminum & Glass System LLC is a manufacturer of modern aluminum enclosure systems based in New Jersey.

Our dedicated teams specialize in the manufacturing and installation of all the products we offer, providing end-to-end service. We address seasonal issues in your homes and workplaces by creating solutions with modern and intelligent aluminum-glass systems. How?

We design the outdoor space you envision together. In our projects, we use innovative, environmentally friendly, technologically advanced, and smart systems to quickly manufacture them.

We offer these aluminum and glass systems, which can be remotely controlled, integrated with features, with long-term warranties and service support that begins after installation.

Albau Aluminum & Glass System LLC, provides solutions for seasonal problems like movable roof, winter garden, guillotine glass, sliding glass, garden fence, zip curtain and windbreak that can all be integrated with your smart phone so that you can have all the control at your finger tip.

**We provide project - manufacturing and assembly services in America and Canada.**

*It's time to make your dream home and office.*

## Design

If you are seeking a completely new look for the aesthetic and unique design of your space, it's time to explore our glass ceiling systems.

The design of insulated glass roofs is a process that takes into account factors such as energy efficiency, durability and aesthetics.

5 years warranty

4 Seasons Protection

Smart Systems

## Introduction

Here are some of the advantages of glass ceilings:

**Natural Light :** Glass ceilings bring natural light into the interior, creating a brighter and more spacious feel. This contributes to energy savings and enhances the overall attractiveness of the interior.

**Aesthetic Appeal :** Glass ceilings provide a modern and stylish appearance, contributing to the overall design and creating a visual impact.

**Visual Width :** Glass ceilings contribute to a sense of spaciousness and openness in the space, even in smaller areas.

**Energy Efficiency :** Glass ceilings made with insulated glass help maintain indoor temperature, minimizing heat loss and improving energy efficiency.

**Spatial Integration :** Glass ceilings establish a connection between the interior and exterior, allowing the interior to seamlessly blend with the surroundings and take advantage of natural views.

## Introduction

**Durability and Security:** Modern glass ceilings are manufactured using strong and durable materials. The use of safety glass or laminated glass prevents the scattering of pieces in case of breakage, ensuring safety.

**Creative Architectural Solutions:** Glass ceilings provide creative and impressive solutions in architectural projects, supporting the unique design of the space and offering various architectural options.

These advantages make glass ceilings a preferred choice in a wide range of applications.
